MODULUS

1949

LIBRARY

Angola, Indiana Tri-State College

We live in an age when knowledge must be shared. It is our privilege to co-operate with the students in offering means whereby they may better direct their efforts—each to his chosen field.

If all Rules and Regulations voiced by the college librarian are carefully obeyed, it will save confusion and make it more convenient for the student body.

FOREWORD

This book has been prepared for you as a memento of the days you have invested here at Tri-State College.

I know I speak for the entire Modulus staff when I say that we believe this book will one day be a source of fond memories for you; a volume to be cherished among your dearest possessions.

Members of the Graduating Class of 1949

The responsibility for the destinies of mankind has by various circumstances become an obligation of this great nation of ours. Great governments have come and gone; great empires have risen to sublime heights and then fallen into oblivion only because the citizenry could not assume the responsibility placed upon it. Today we are living in an age of science. Some would have us believe that our obligation to society can be fulfilled through scientific methods.

You who are going out into the world of competition have been trained to apply sound logic to the solution of all problems, and you must assume the responsibility and accept the obligation of trying to make this country the guiding light of the world in this hour of darkness. You are challenged to contribute your efforts and talents to the preservation of democracy for free people by applying your knowledge and training in whatever field of service you are called upon to direct.

We wish for the members of the graduating class of 1949 all of the success that it is humanly possible to attain.

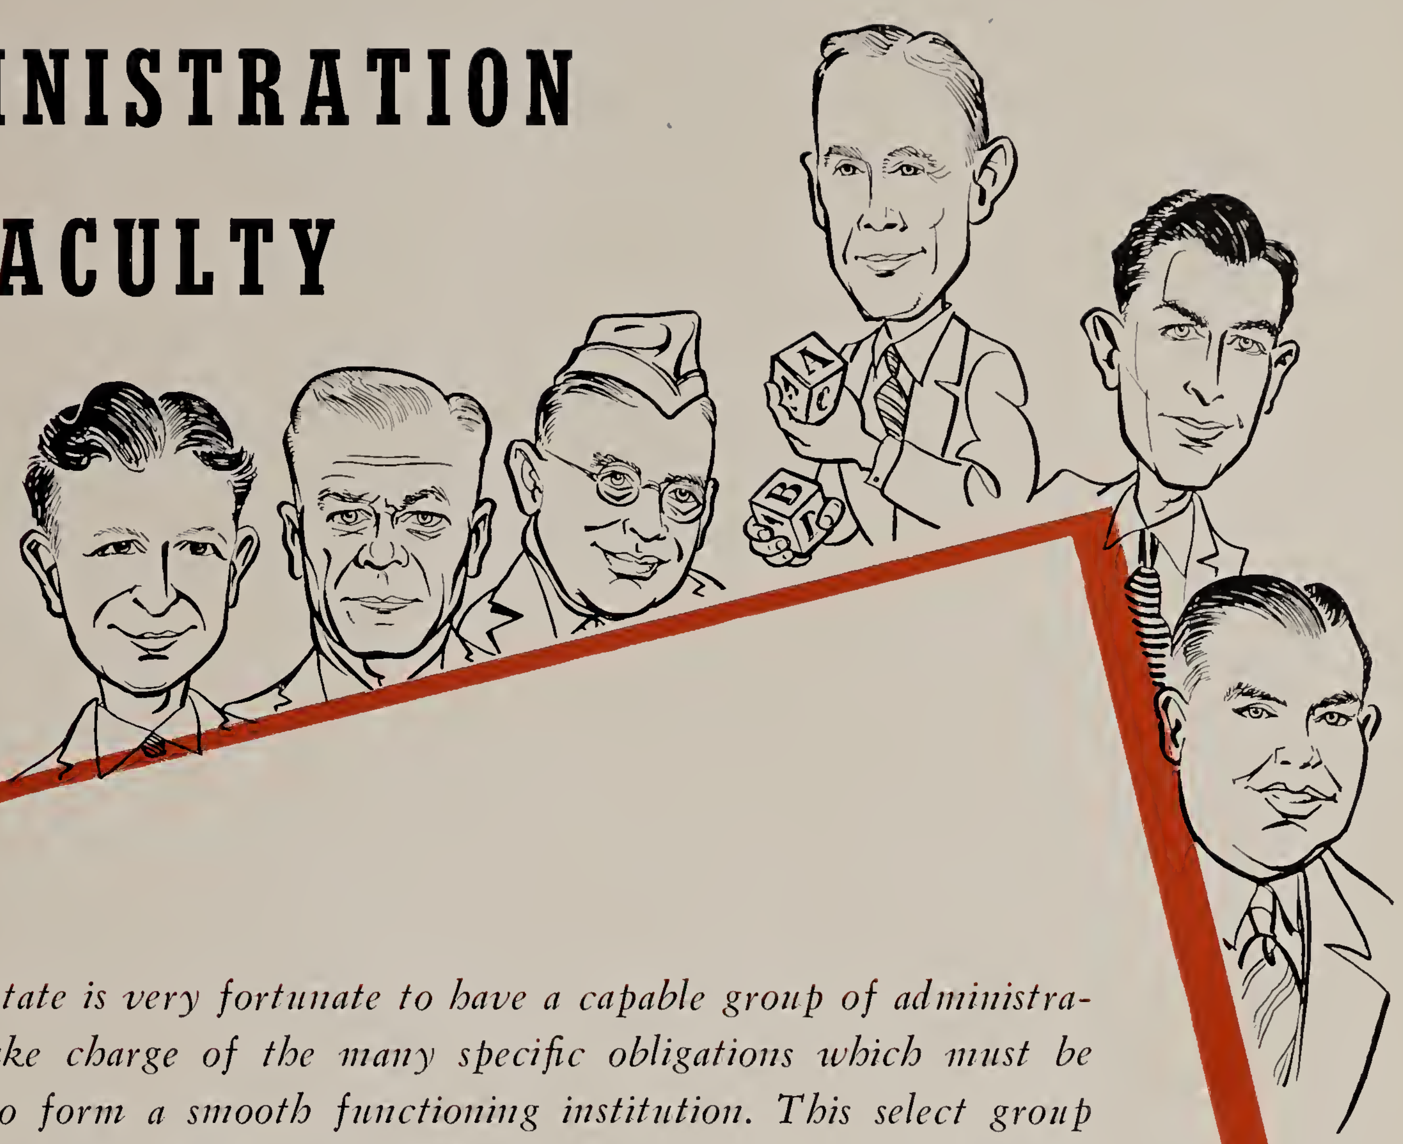
ADMINISTRATION and FACULTY



Tri-State is very fortunate to have a capable group of administrators to take charge of the many specific obligations which must be fulfilled to form a smooth functioning institution. This select group of competent individuals is responsible for many of the services available to the students and faculty.

The Print Shop

The Tri-State College Printing Shop was organized in 1937 at which time the school purchased one 7x11 Chandler-Price hand-fed Platen Press and a few fonts of foundry type. The next year Roy C. Bodie was placed in charge of the shop.

Since that time the undertaking has grown into a modern printing shop which includes an automatic Miehle Vertical Press, two Platen Presses (7x11 and 10x15), one offset press, one automatic power cutter, an automatic stitcher and an automatic 17x22 Baum folder.

In the spring of 1948 the original one room was expanded to cover the entire west half of the Administration building's first floor. The extra space and modern equipment enables the College to do nearly all of its printing. It also provides steady employment for an experienced printer and three assistants as well as part-time work for a number of college students.

Besides printing, the shop personnel has charge of the alumni file, directs student housing, and acts in an advisory capacity for student publications.

PRINT SHOP SCENES

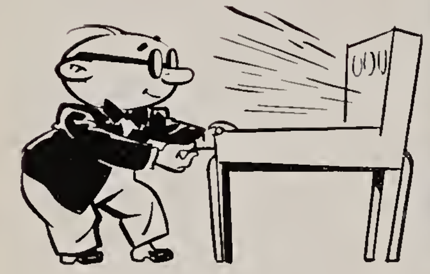
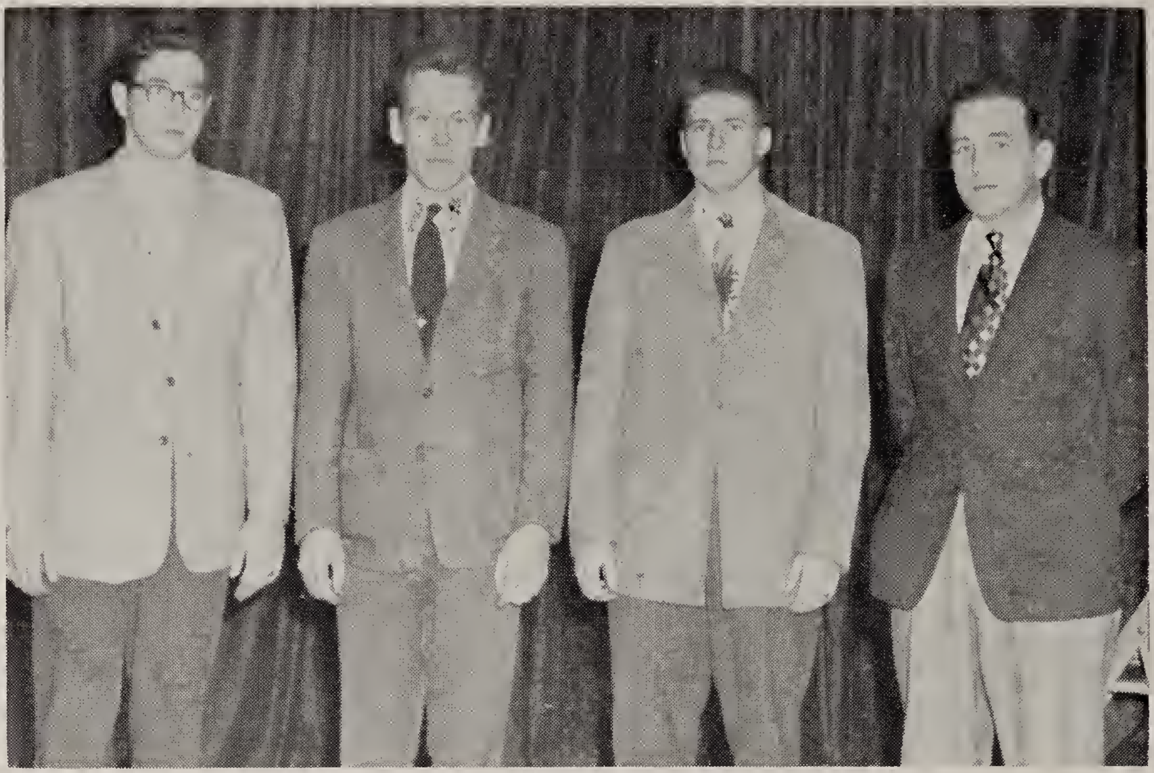
Commerce Department

The purpose of the School of Commerce is to help worthy young men and women develop into executives with minds trained to work out the newer problems of business. The entire American economic life is changing rapidly, bringing about an unprecedented growth of perplexities. This has developed an unusual demand for competent persons to fill important positions of control.

The School of Commerce consists of three divisions; Accounting, Business Administration, and Secretarial Science. Each department offers specialized instruction and study in these three fields of commercial endeavor with a Bachelor of Science being awarded at the completion of the prescribed course.

COMMERCE





OFFICERS

Left to Right: LEON M. GOLDBERG, ROBERT E. JOHNSON, DONALD E. LOBB, WALTER L. CLARK.

Alpha Beta Alpha

The purpose of this Honorary Society, which was founded in 1938, is to promote and recognize scholastic ability, leadership, and character among the students of the School of Commerce.

Six members are elected into the Society each term. The requirements for eligibility are based primarily on scholarship.

Under the guidance of Professors H. R. Hoolihan and H. W. Hoolihan, the society encourages its members and all future members to maintain a high scholastic standing. The high ideals set by Alpha Beta Alpha serve as an incentive to all students in the Commercial School.

Sigma Epsilon Society

The Sigma Epsilon Society was organized in 1933. The aims of this society are mainly to create a spirit of initiative in the Commercial student by offering him an outlet for his energies. Competent men in the business world address the students at the meetings held during the term on subjects pertinent to the present day business problems.

Educational movies on related subjects are shown to the members to help acquaint them with their future work.

Committees are appointed to survey industrial plants and commercial departments to find out what qualities personnel managers require of graduates seeking employment.

OFFICERS

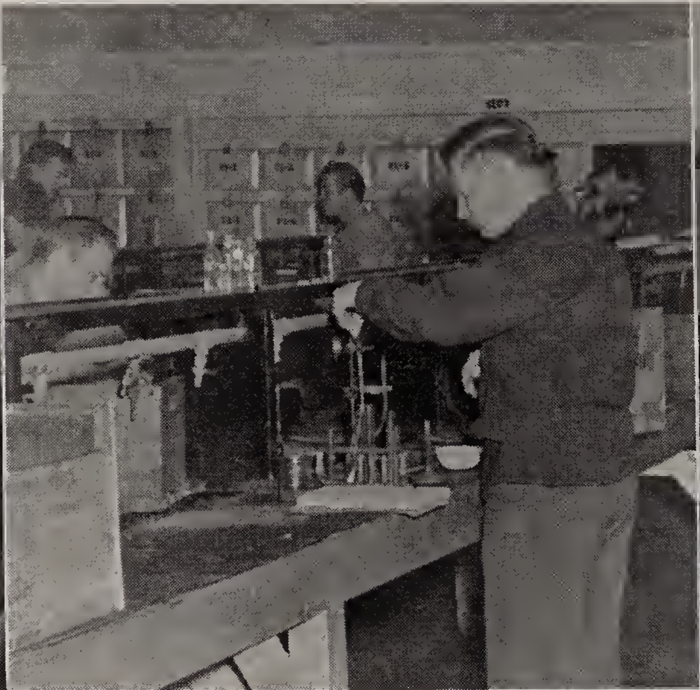
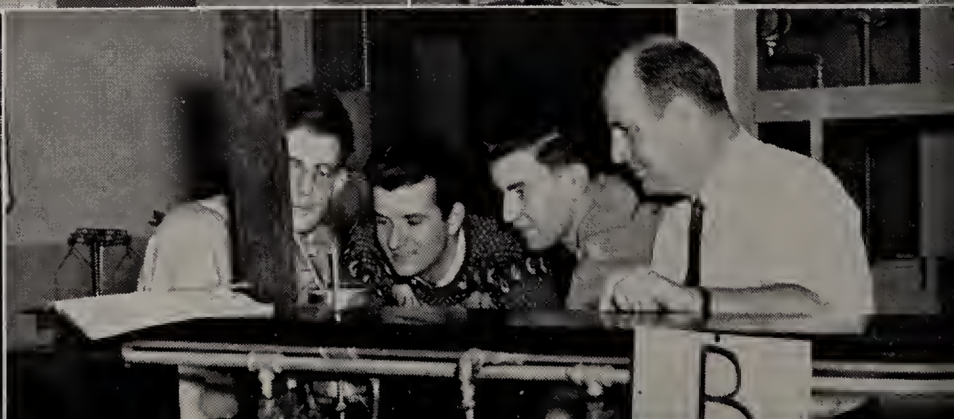
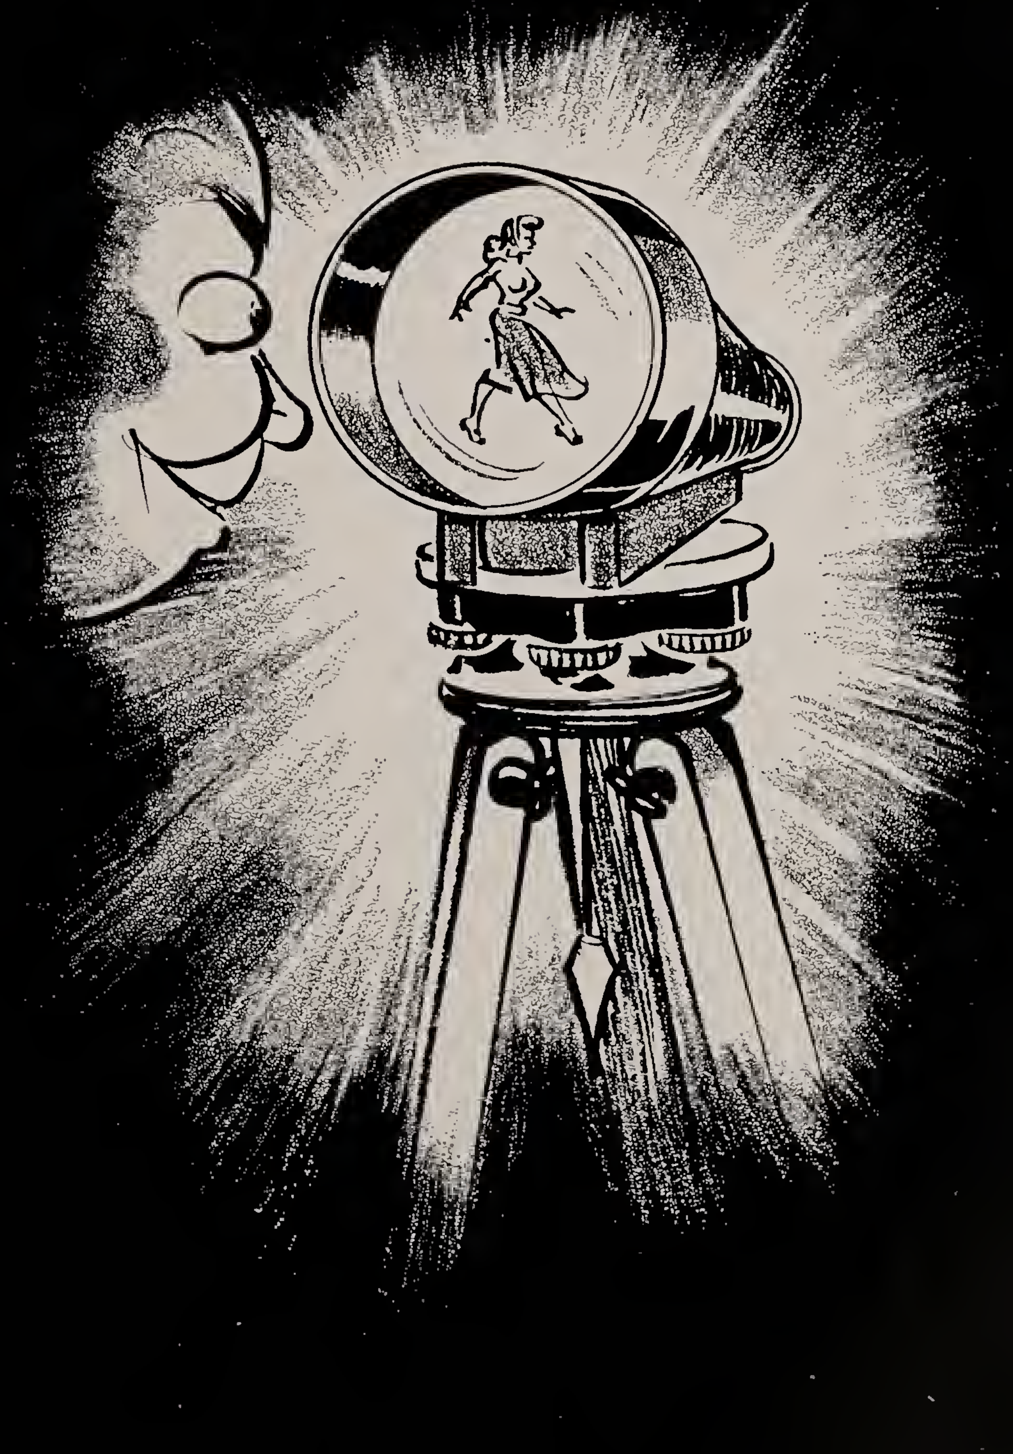
College of Engineering

Along with its innovations in Engineering, Tri-State College has long been distinguished in the field of education for the successful pioneering of degree accelerating courses in Engineering. This becomes possible from the fact that more hours of recitation per week are required at Tri-State College. Tri-State College gives actually more hours of essential technical engineering training than are given in the average four-year course.





ENGINEERING



Tau Sigma Eta

Tau Sigma Eta, honorary engineering society, was incorporated under the laws of the State of Indiana, April 10, 1930. Membership in the society is a reward for outstanding academic work in the Engineering School.

The requirements for admission are, a 2.3 scholastic average out of a possible 3.00, with a maximum of two "C" grades for four consecutive terms. All engineering students with these qualifications are considered for recognition in the society.

Tau Sigma Eta stands for the ideal in campus organization; brotherhood and friendship, a well-balanced social program, and the maintenance of high scholastic records.

Aeronautical Society

The Institute of the Aeronautical Sciences is a national organization of Aeronautical Engineers. It has as members some of the world's most famous pilots and engineers connected with aviation and its many allied fields.

The Institute publishes a journal to keep members posted on the developments and achievements in the aviation industry.

The business activities are in the hands of four officers: Chairman, Vice-Chairman, Treasurer and Secretary. These four officers are elected by popular vote at a banquet held each term. This banquet is the high spot of each term's activities and usually features a well-known speaker from the aviation industry.

The Aeronautical Society wishes to extend its best for good luck and success to the graduating class of 1949.

Civil Engineering Society

The Society became affiliated this year with the American Roadbuilders Association in the form of a Student Chapter on the Campus of Tri-State College. This affiliation affords the Civil Society member the opportunity of keeping up to date on the outside civil field by receiving pertinent monthly bulletins, magazines, and other literature.

The Civil Engineering Socitey was very fortunate this year in obtaining many outstanding speakers and motion pictures related to Civil Engineering work.

ELECTRICAL SOCIETY OFFICERS

Arthur E. Schott, *President*
Pat R. Monroe, *Treasurer*
James E. Hughes, *Secretary*
Richard E. Waugh, *Vice President*

Electrical Engineering Society

The primary objective of the Electrical Society is to acquaint members with actual practice in their chosen field. To attain this, the officers of the Society have decided on a three-fold plan: speakers, moving pictures, and demonstrations. The speakers are chosen from the leaders in the electrical industry.

Moving pictures are shown to illustrate various phases of electrical work. Demonstrations are given by speakers and the school's instructors. The Society also sponsors field trips which enables members to observe opportunities in their prospective field.

CLYDE SHAW

Mechanical Engineering Society

JOHN HUMPHRIES
Head of Department

The objectives of the Society are to promote good fellowship, furnish an opportunity for students to develop leadership, and to disseminate technical information of interest to student engineers. These objectives are accomplished through meetings conducted wholly by and for the students which are held on the campus three Wednesdays a month. Much valuable information is obtained from listening to speakers engaged by the Society at frequent intervals. These men are experts in their field and furnish the student an insight as to what lies beyond graduation. In addition, at nearly every meeting a short movie depicting some phase of engineering is shown.

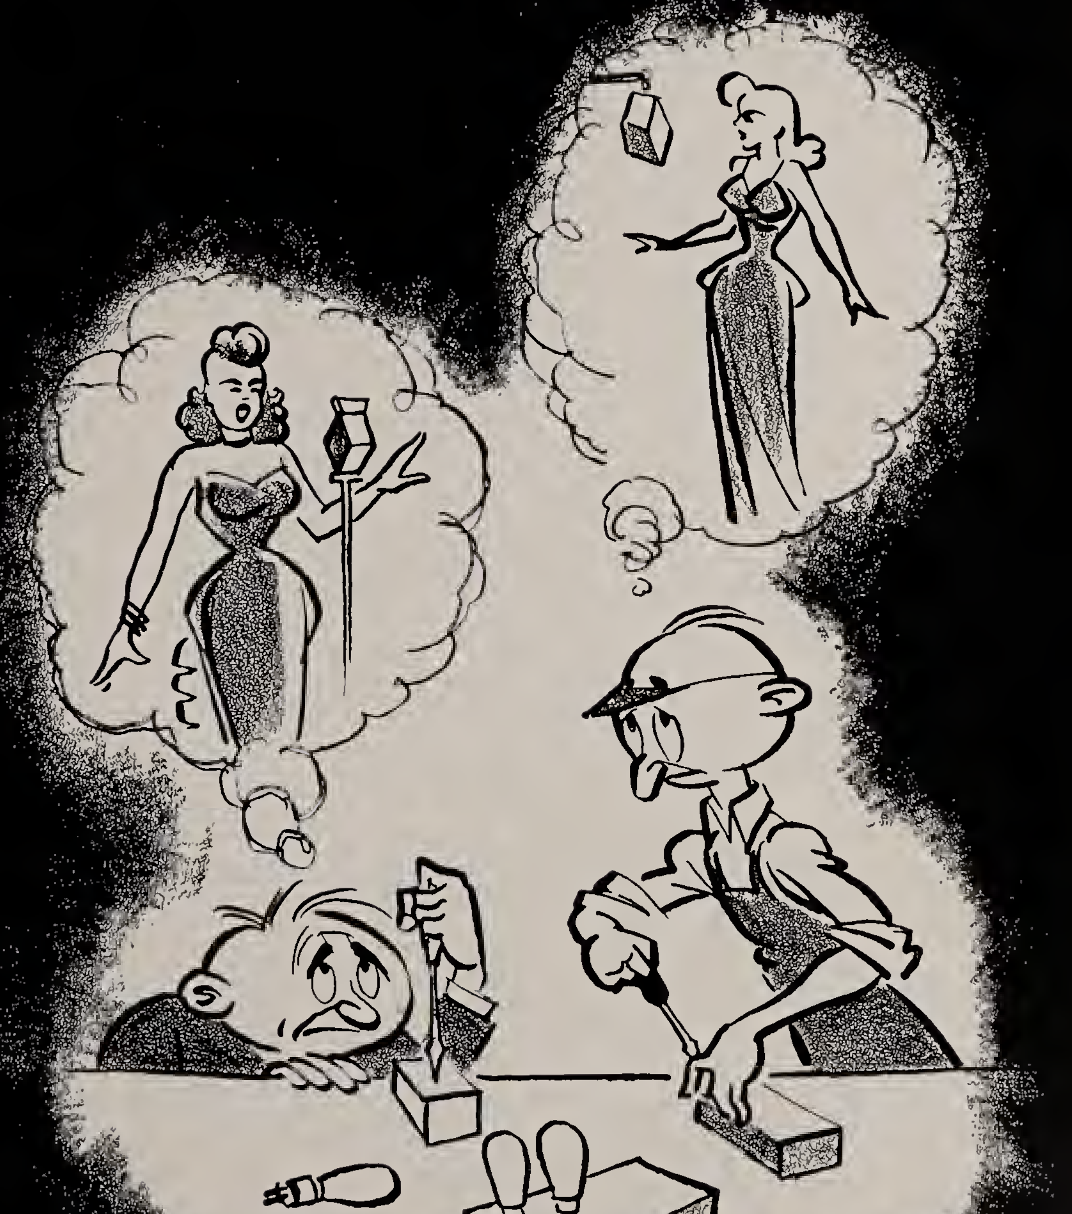
Radio Department

RADIO



Radio Engineering Society

LELAND AX

Head of Department

Students enrolled in the Radio Engineering Course and others who possess an interest in Radio find valuable companionships and knowledge to be gleaned from the meetings of the Radio Engineering Society. It is their Society organized by and for them.

Activities during the past year included speeches from outstanding technicians in the Radio Engineering field; as well as talks by men in such positions as the departments of large corporations afforded much valuable information to the Society members.

The most notable achievement of the Radio Engineering Society during the past year was its reorganization under a new constitution which was written during the fall term.

An especially exciting event attendant upon these meetings was the gathering in the ham shack of a number of students and professors to observe the Television programs.

Those of us who are graduating give those members remaining strict charge to maintain the high standards and ideals of our Society, so that in the years to come we may look with genuine pride upon our Society.

ACTIVITIES

The

STUDENT COUNCIL OFFICERS

John O'Hare, *Treasurer*
Carlo Martinez, *Secretary*
Donald Creedman, *President*
Charles Witt, *Vice President*

The Student Council is an organization made up of students to promote such campus activities as dances, inter-collegiate sports, election of senior class officers, and other activities that will benefit the student body. It is the voice of the students, expressing their views to the college and the public.

The Council is composed of two members from each student organization on campus. It is the duty of these members to attend all meetings, participate in Council activities, and to report to their organizations any and all progress that has been attained.

Although this last year has brought about a greater and better Student Council program than any in the past, there are even higher hopes for the future.

Skull & Bones, C. O. A.

Skull and Bones, C. O. A. was inaugurated as an honorary social society by a group of ten charter members in the spring term of 1948.

During the summer term the Skull and Bones was occupied with internal organization and at the end of the term inducted 13 new members. Honorary members elected were Theodore Wood, J. Glenn Radcliffe, and Bill Sunday as faculty advisors.

Skull and Bones in its ideals is to recognize outstanding student leadership in extra-curricular activities, to promote student activities by encouraging students to become active in at least one campus organization, to promote student spirit and brotherhood and, finally, to promote to the highest degree the traditions, honor, and prestige of Tri-State College.

Nineteen Forty-nine Modulus

Modulus 1942
1946
MODULUS 1935
MODULUS 1947
1948 MODULUS
Modulus
1938
MODULUS 1949

The domineering force behind your 1949 Modulus. He carried out the biggest job of the year in magnificent fashion.

Modulus Staff

After thumbing through your 1949 Modulus, perhaps you would like to see the people who assembled it . . . the people who pounded out readable copy . . . the photographers who showed up at unusual places to get unusual pictures . . . the folks who did the office chores and filed stacks of correspondence . . . the editors and business staff who wrestled with publication problems and financial contracts.

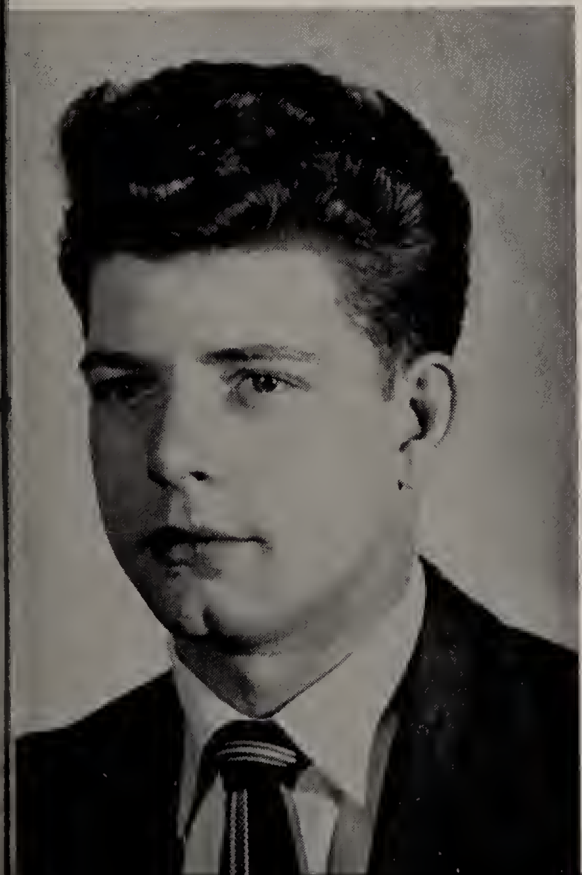
COVER
ART

WILLIAM L. THOURLBY
Editor-In-Chief

ALEX SCHULTZ
Associate Editor



Coordinator of the entire Modulus staff. By far, one of the most difficult tasks, but by far one of the most successfully executed.

Bob was the financial wizard of the staff. The fact that he completed his job in grand style can be attested to by the many congratulatory letters from people with whom he did business.

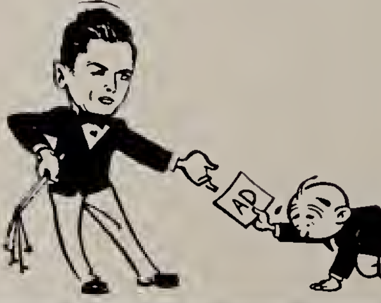
ROBERT SPRINGER
Business Manager

The work of gathering information and planning pictures of hundreds of graduates and scores of activities furnished plenty of work for the editorial staff. Selling and distributing 750 copies of the Modulus plus going out and getting ads put many more students to work in circulation and advertising departments.

STANLEY NATOWITZ
Assistant Business Manager

"Ike" did a job everyone thought impossible. He was the huckster who was responsible for the sale of the most yearbooks in the history of Tri-State College.

ANTHONY GUCCIARDI
Advertising Manager



Tony was the power behind soliciting ads for the Modulus. The thoroughness with which he did his job can best be explained by the fact he accounted for the largest dollar volume of advertising ever.

Words are not necessarry to tell of Red's accomplishment. One glance at the arrangement and organization of the book will speak for itself.

FRED PYNE
Layout Editor

With Thanks To - - -

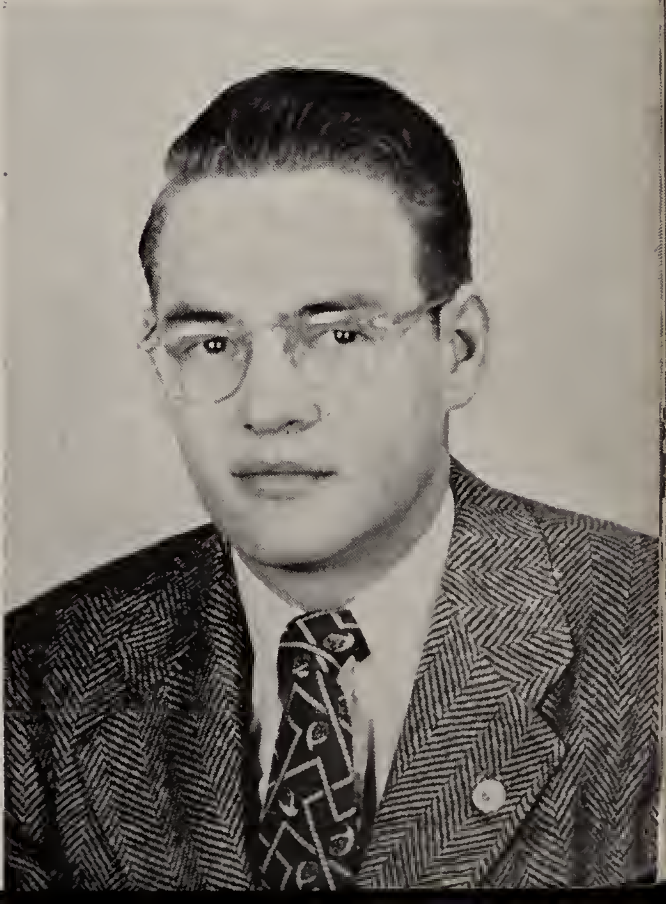
The 1949 Modulus Staff — all those guys n' gals who made the wheels go 'round; Roy C. Bodie, Jr. and Professor Robert H. Ramsay, advisor; Cline Studio; the Fort Wayne Engraving Company; Eugene Craig and his staff of artists; the S. K. Smith Company; the Steuben Printing Company; and to all of you who have helped make this year book possible.

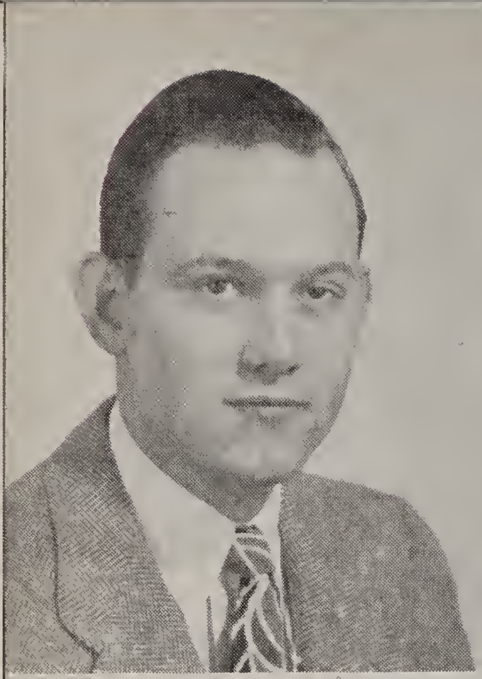
Nort had the task of arranging all Fraternity and Society picture schedules. He completed his job more quickly and satisfactorily than anyone had anticipated it could be done.

NORTON SUTTON
Managing Editor

Bob took upon himself the job of correlating pictures for one of the largest graduating classes in Tri-State history. Despite the magnitude of the task he completed it in record time and in fine style.

ROBERT HENDERSON
Managing Editor





PAUL WILLCOX

Photographic Editor

It is said that without pictures a yearbook is nothing. Upon Paul fell the job of more and better pictures. Proof that he did his work well is evident throughout the book.

WILLIAM TEAGNO

Literary Editor

Due to the fact that in my capacity as literary editor I was required to write descriptions of the staff, I am not at liberty to divulge myself.

CHARLES WOLFE

Sport Editor

Chuck was the fellow who had to compile the events of our biggest sport's year. To do a good job was difficult but to do what Chuck did was miraculous.

MARI-JEAN CHADDICK

Copy Editor

Mari-Jean Chaddick is the individual who is responsible for the feminine touch in your Modulus. That a woman's touch is necessary cannot be doubted, and that Mari-Jean provided it, is evident.

Yes! Its been a long hard road, but the job has been accomplished in grand style. Herein lies a book which is a definite tribute to the many long hours which have been expended in its production Truly, not the book of the week, not the book of the month, but the book of the year.

oosier Princess Candidate

—Photo by Keel

This year Tri-State College had honor of being represented a candidate for Hoosier Prin s. Sixteen colleges in Indiana re given the privilege of sub ting a campus queen to repre t their school in the contest the Indiana title. We were eed fortunate to be represent by Miss Virginia Lee Smith, a dent of the school of com rce and a resident of Angola. The contest is sponsored by the lianapolis Star and the success candidate is sent to Washing to represent Indiana in the nual Cherry Blossom Festival the spring. The various state didates vie for the queenship the festival in Washington.

The winner of the Indiana contest this year was Patricia Ann Abell of Ball State Teachers College. Other candidates besides Miss Abell and Miss Smith were Nancy Grant, Franklin College; Colleen R. Vaughn, Purdue University; Martha Mennen, Indiana Central College; Elizabeth Anne Elleman, Earlham College; Donna Brueggeman, Valparaiso University; Eleanor Jean Smith, Indiana University; Marjorie Reed, Butler University; Patsy Nichols, Vincennes University; Joyce Delaney, DePauw University; Feleta Benedict, Evansville College; Willa Dean Harris, Canterbury College, and Barbara Baker, Indiana State Teachers College.

IN MEMORIAM

NIAL G. ALEXANDER

April 20, 1928 — February 16, 1949

"The Lord Giveth; The Lord Taketh Away"

It is with heartfelt compassion that the students and faculty of Tri-State College mourn the untimely death of Nial G. Alexander, student of Electrical Engineering. Nial was born in Richmond, Indiana; and joined our ranks in September, 1947, under a scholarship to study his chosen field. During his two years here he made many friends.

Our prayers are many in order that his soul may find peace and contentment in a life everlasting.

God be with him.

Phi Sigma Chi To Receive Charter From Alpha Gamma Upsilon

On January 25, 1949, the National Social Fraternity Phi Sigma Chi, petitioned the National Collegiate Fraternity Alpha Gamma Upsilon, for a charter.

A group of representatives composed of the Executive Secretary, C. M. Force and two of his associates, S. W. Anderson and J. A. Tracy, visited the house on a tour of inspection on February 5, and submitted a report to National Headquarters, Detroit, Michigan.

Their report was favorable to the Board of Directors and Phi Sigma Chi has been given the green light to make plans for a banquet to inaugurate the acceptance of the organization into the Alpha Gamma Upsilon National Collegiate Fraternity.

Due largely to the efforts of Robert Megargle and owing to the splendid record of all present and past members, the final acceptance will add another link to the chain of steady progress toward improving the position of both the society and improving relations between this college and those in the Tri-State area.

The first chapter of Alpha Gamma Upsilon was founded in 1922, by Herbert Carter, Homer Ideo, Alfred Koeneke and Dale Oduel.

The purpose of forming the Alpha Gamma Upsilon was for the edification of all its members. To promote a congenial and stimulating atmosphere, in which its members might find the satisfaction of their social needs.

While relatively a young [illegible]

[illegible] trophy, is awarded [illegible] chapter which ex[illegible] field of a chapter news[illegible]. The name of the winner and the year is engraved on the trophy. If won three times it becomes the possession of that chapter.

A key is awarded annually by the Board of Directors to the outstanding member of each undergraduate chapter. This highly coveted pendant is presented to the one man in each chapter who most nearly exemplifies the ideal fraternity man.

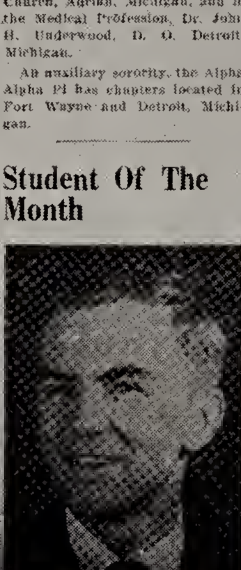
An Alumni Cup is awarded an- fulfilled to the highest degree the ideas and principles of the frater- nually to the chapter which has alty. The cup remains in possession of the victor for the subsequent year, although it is actually again put in competition.

Undergraduate chapters in our area include the University of Detroit, Wayne University, University of Toledo, and Michigan State and Normal College.

Prominent names among the alumni include, Educational: Dr. Robert E. Osborn, Dean, College of Electrical Engineering at Cornell University — Industry and Finance: Homer Ideo, Chase National Bank, New York City and Dr. Stuart McClain, Director of Nuclear Research, Oak Ridge, Tenn. — Religious, Rev. J. Pierce Emez, Pastor, First Presbyterian Church, Adrian, Michigan, and in the Medical Profession, Dr. John H. Underwood, D. O. Detroit, Michigan.

An auxiliary sorority, the Alpha Alpha Pi has chapters located in Fort Wayne and Detroit, Michigan.

Student Of The Month



TWEILLER
by Paddock

[illegible] terms holding the offices of vice president and pledgemaster. Ken is popular not only in his own fraternity where he was elected to represent Sigma Mu Sigma on the Inter Fraternity Council, but in addition he has held the offices of president and secretary of the I. F. C. He also has served as junior and senior representatives of Sigma Mu Sigma on the Student Council. At present Ken is vice president of Skull and Bones C. O. A. and he is a past secretary. In addition to all this he has been a member of the Aeronautical Society for four terms.

Kenny will receive his B. S. degree in Aeronautical Engineering this June and will immediately make Miss Mary Ellen Watson of Elkhart Mrs. Kenneth Dettweiller. With his wife, Kenny is going to take Horace Greely's advice to "Go West, Young Man." He intends to practice his profession on the West Coast in the field of Jet Research.

We proudly dedicate this column to Kenny Dettweiller, our choice for success.

Division Of Classes Planned

An idea for dividing the classes has been worked out and handed down to us in hopes of speeding up registration, helping to gain recognition for the college and organizing the students for the purpose of promoting school spirit.

Most of you have either read the plan or heard of it by now but for those of you who haven't it reads:

I. The student body of Tri-State College shall be divided into four (4) classes; Freshman (C-B-A)—1st, 2nd and 3rd termers; Sophomores (B-A)—4th and 5th termers; Juniors (B-A)—6th and 7th termers and Seniors (B-A)—8th and 9th termers. Students shall be designated and assigned to classes according to time remaining until graduation for those taking other or more than the regular 8 term course. This division is to be active as such from registration March, 1949, on. Students will be informed as to their classifications upon registration.

This would mean that if you are in your second term and you have thirty-two subjects (counting the ones for the term you are in), you are a Freshman B. Your class standing is figured by the number of unfinished classes divided by four. All fractions will be considered as full terms.

II. Each class shall have four officers: President, vice-president, secretary and treasurer and as many committees as may be necessary for the welfare of the class. Each class shall have two (2) representatives on the Student Council who shall represent the class on council decisions and the Senior Representative shall [illegible] a member of the nine (9) man [illegible]ciary Committee of the Student Council.

[illegible] practically self explanatory [illegible] for the Judiciary [illegible] which is in the developing stage yet. The tentative [illegible] one (1) man from [illegible] classes, one (1) man [illegible] Inter-Fraternity Council, [illegible] man representing the [illegible] one (1) man from the [illegible]strative branch of the college. The other two members [illegible] the president and secretary of the Student Council, but shall have no vote.

III. There shall be a minimum [illegible] two (2) meetings a term for each class. The first being for the [illegible] of officers. A record of attendance shall be kept at all [illegible].

This is along the same line as [illegible] meetings we have had in the past. The attendance record is a protection clause. If you [illegible] attended the meeting [illegible] you have no right to object [illegible] plans made there by the class.

IV. Duties of the officers shall follow those set up in Roberts Rules of Order.

This is self explanatory. Those of you who don't know Roberts Rules of Order should check the book out some time. It cuts meeting time in half.

V. Those in the preparatory stage shall not be considered as This is the only solution as those students in the college proper, in the prep stage could hardly be considered members of a college class.

This plan has great possibilities so when these classes organize let's all turn out for the meetings and put forth all our efforts and show the man who worked this out that it was not in vain.

Poetic Post-Mortem

By Anon

ARCHIE THE ACCOUNTANT

Archie the Accountant has knowledge to burn
He can tell at a glance if its a going concern.
His debits and credits will always add up,
A slip of the pencil and, fellow, you're bankrupt.
But alas and alack, to Archie's dismay
Women and ledgers are poles away.

Deadline For Subscriptions Is March 10

It's on the way! Yes, it's on the way! The 1949 Modulus is due in June.

This year, due to an industrious and capable organization, the Modulus promises to be one of the best annuals ever to depict the hallowed halls of Tri-State College. Every effort has been exerted to obtain the most qualified commercial jobbers, and so far results have been better than could be hoped for. In this endeavor to better the Modulus, we were very fortunate to obtain the services of Gene Craig, cartoonist for The Fort Wayne News-Sentinel. This in itself should go a long way toward brightening the Modulus, which in previous years has lacked the color promised this time.

Nevertheless, in spite of the smooth movement of production, fate of the Modulus still hangs in the balance. We all are well aware of the fact that a yearbook is an expensive proposition and without subscribers its production is an impossibility. In the past the Modulus has always operated at a deficit. Many methods have been attempted to compensate for these losses but none has ever proven successful. For this reason a new sales program has been instituted this year.

We have set March 10 as the deadline for all orders. After this date no subscriptions will be accepted in any shape or form. Thus, if subscribers are not at a high level, we still will be able to produce the annual for the persons who have ordered—and at a minimum cost.

The staff realizes there will be a great deal of skepticism about the possibility of publishing a truly great Modulus, but you may be assured the only disappointed persons will be those who failed to buy theirs.

Remember! It's due in June!

S. A. E. Organizes Branch Here

Thursday evening, February 3, approximately 45 persons, including enrolled student members of the Society of Automotive Engineers, met for the purpose of organizing a Tri-State student branch of S. A. E.

The Society of Automotive Engineers is a professional organization for those engaged in the design, production, operation and maintenance of passenger cars, trucks, aircraft, diesel powered equipment, tractors and farm machinery, their component parts and fuels and lubricants.

S. A. E. committees solve engineering problems at the request of government and industry. S. A. E. committees also establish standards and recommend practices and material specifications which are accepted by industry.

Benefits derived from enrollment in the Society include: monthly issues of the S. A. E. Journal, attendance at group and sectional meetings, numerous S. A. E. publications available at reduced prices to members, and free use of the S. A. E. Placement Service. Student enrollment in the society costs three dollars per year.

The purpose of the student branch is to promote interest in new developments in the automotive industry and to further acquaintance and good fellowship among the students.

The following officers were elected for the present term: Chairman, David A. Walker; vice chairman, Paul Dalstrom; secretary, Ralph W. Pashby; treasurer, William E. Outcalt, and faculty advisor, Professor John Humphries.

Meetings will be held on the first and third Thursday of each month. Memership is open to all engineering students. Application forms may be obtained from the secretary.

If Washington never told a lie, he's not like a lot of politicians I know.

Skull And Bones Gives 'Em The Handshake

By Jerry Marcus

Once again Skull and Bones, C. O. A., the most recent and by far the most aggressive Society on the campus, has shown that its interests are those of Tri-State's — its purpose — to further our school's standing.

You all will undoubtedly remember this Society for its admirable accomplishment last term of sponsoring the diplomas which were presented to the graduating seniors' wives at the Senior Prom.

These boys, forty strong term, just won't allow any of proverbial chlorophyl contai weed to grow under their fe Their latest promotion is one really deserves a round of plause. They've devised a sc which was suggested by Cha Member Jack Wine, whereby and every new student con Tri-State is personally greeted indoctrinated. That sounds lik pretty big job, but here's how go about it. A complete list of students is obtained from th fice and is divided equally am the members. It is then the ligation of each member to con personally each new student on list and make him feel at ho This term each membe around seven students to con and little time was wasted in do so.

One of the Society's main tions is to increase student in est in extra-curricular activ and this "direct contact" sche seems to be going a long wa ward accomplishing this ai According to reports from members most of the students c tacted are a bit surprised haps even a bit suspicious first but after the boys finish ta ing the new students are d right appreciative to get a fe those ever present First-Term Blues off their chests. The me bers attempt to give the new s dents a complete description any and all societies which mi be of interest to them.

The Skull and Bones is a soci which all of us can look to big things in the future, and which we can thank for havi as its purpose something so de to us all — our school.

Know Your Prof

—Photo by Willcox

Professor George F. Schultz is one of the newest additions to our teaching staff at Tri-State College. He came here in January of this year after three years in Sao Paulo, Brazil, where he was an instructor for Escola Tecnia de Aviacao in its Aircraft Electrical Department.

Although he has seen much duty in foreign countries, acting in both civilian and military capacities, his home is in Columbia City, Indiana.

Professor Schultz is a graduate of Marshall Memorial High School of that city and in 1927 he entered the United States Naval Academy at Annapolis, Maryland. He was graduated from there in 1931 as a commissioned Ensign. During his stay at the Academy he won varsity letters in basketball and baseball. He served as Athletic Director of the year book, "Lucky Bag."

After receiving his commission, Mr. Schultz was assigned to the battleship Maryland where he served two years as junior officer in Gunnery and Engineering. In 1933 he went to Pensacola, Florida, for flight training. The next two years saw him as Electrical Officer aboard the U.S.S. Lexington.

On both the Maryland and Lexington he coached the basketball and baseball teams. In 1932 he piloted the U.S.S. Maryland's baseball team to a championship and did the same for the U.S.S. Lexington's baseball team in 1935.

In 1936 Mr. Schultz was ordered to duty overseas in Berlin and Latvia, where he studied the Russian language and visited the Soviet Union. Back in the United States in 1938, he was assigned to sea duty aboard the U.S.S. Bainbridge until his retirement in 1940 for physical disability.

Now we are getting closer to the present situation with a review of Professor Schultz's teaching experience. In 1941 he began at Indiana Technical College, Fort Wayne, where he remained for three years as Civil Aeronautics Administrator for War Training Service. In 1944 the position was discontinued and he worked for a year in the General Electric Laboratory in Fort Wayne.

This brings us around to the opening statements concerning Professor Schultz's career when we mentioned his three years in Sao Paulo as instructor for the Brazilian Air Force.

Professor Schultz states that there is a great opportunity for engineers in Brazil at the present time.

The students and faculty of Tri-State College welcome Professor George F. Schultz to the campus and we hope he finds us a pleasant bunch with whom to work.

Valentine Dance Big Success

Did you attend the Valenti Dance? If you did, you will kn what I mean when I say that "t joint was really jumping." Ye one of the largest crowds ever attend a dance in the recreati hall really enjoyed the dance February 11, 1949. They danc to the music of a very new ban "The Cocktail Six and One Shot This was the band's first pub appearance. All of the musicia have had considerable experien with semi-name bands.

Decorations consisted of strea ers in blue and white, forming gracefully curved arch to the ce ter of the ceiling. Above th streamers soft red and blue ligh provided illumination. With t playing of their theme "What New," "The Cocktail Six" starte the dancing party off to a flyi start at 9 p.m. With intermitte vocals by Kathleen "The Sho Schmidt, the band kept the peop dancing and happy until 12. a.m. when the affair ended.

On Friday, January 21, 19 there was a Sports Dance in hon of Tri-State's athletic progra Music for this dance was furnis ed by the "Anything Can Happ Band."

At 10:30 o'clock that evenin dancing ceased while Tom Cree man, the Student Council Pre dent introduced Coach Bob vine. Against a background of ca toons depicting our sports hero in action, Coach Divine then p sented "his Boys," the basketba team, who then received a thu derous ovation from the crow Win or lose, they're OUR tea and the applause was, of a certai ty, an overwhelming approval the fighting spirit of our bask ballers.

Refreshments served later, fo lowed by more dancing, complete the evening.

Some may wonder who the pe sons are who take time out decorate the recreation hall a make it look more like a ballroo The dances are sponsored by th College and supervised by the St dent Council. Several membe from the Council take time o and do the decorating. These pe sons do a splendid job. There also the job of getting entertai

The Tri-Angle

The Tri-Angle, the college newspaper, published monthly by and for the students of Tri-State College, had its origin in December, 1946.

The policy of the Tri-Angle is to inform the student body of the activities and progress of the societies, fraternities, and administrative program of Tri-State College.

It is one of the youngest and most popular organizations on the campus.

Each term gold keys are awarded to members who have done outstanding work on the Tri-Angle staff.

Alpha Sigma Phi

On April 10, 1925, a charter was granted to the fraternity to be known thenceforth as Phi Lambda Tau. Four years later, Phi Lambda Tau having grown apace with the leading fraternal organizations on the campus decided to merge with the national fraternity, Alpha Delta Alpha. After the disbandment of the Alpha Delta Alpha in 1935, members petitioned the national executive officer of the Alpha Kappa Pi for a charter which was received in November of 1935. Alpha Kappa Pi prospered for the next eleven years and then on September 6, 1946, a consolidation was effected with another great national fraternity, Alpha Sigma Phi.

Standing for charity, culture, loyalty, patriotism and perpetual friendship, members face a future made bright by the fire of personal development which has always been kindled within the walls of Alpha Sigma Phi.

Beta Phi Theta

In 1922 a group of men organized "The Four Eleven Gang" to promote good fellowship. To give other students a chance to enjoy this relationship they decided to expand and it was at this time Lambda Phi Epsilon was born. The membership of this fraternity grew and, recognizing one of the great needs of the student, opened the first fraternity house on Tri-State Campus in 1925. Then in 1929, the Lambda Phi Epsilon became the Delta Chapter of Beta Phi Theta.

Beta Phi Theta is proud of its members who are graduating this term. For those of us who remain, there is a tradition and reputation to uphold. We of the Delta Chapter pledge ourselves to carry on in a manner worthy of our heritage.

Phi Iota Alpha

The origin of this organization dates back to 1921 when it started its activities as the Club Hispana-Americana composed totally of Spanish-American students attending Tri-State College. After six years of existence, it was registered under the laws of the State of Indiana as the Alpha Chapter of Gamma Eta Alpha fraternity.

An intensive movement begun by this organization culminated in fusion with the Phi Lambda Alpha fraternity as the Eta Chapter. On December 26, 1931 during our annual convention, the Phi Lambda Alpha merged with the Sigma Iota to form the present Phi Iota Alpha fraternity of which we are the Iota Chapter.

The aims are to foster a better sense of duty and study among the members and to create that Latin atmosphere which is an integral part of far-away homes of the members; constantly striving for that great ideal, the ultimate goal: "The political and economical union of all Latin-American countries."

Phi Kappa

The Alpha Gamma Chapter of Phi Kappa is the fruit of the toil undertaken by the members of the organization once known as Alpha Gamma Omega. In May of 1943 a charter was sought of the Phi Kappa National Catholic Fraternity, and on January 24, 1944 the Alpha Gamma Omega Fraternity was initiated into Phi Kappa, as the twenty-seventh chapter.

Among its many achievements in Phi Kappa this chapter has endeavored to maintain its high scholastic standards sets by its predecessors, as well as to enter into all inter-fraternity activities. Its main purpose on the Tri-State campus is to aid each member in bettering his efforts in learning; in developing a sense of responsibility and of loyalty; in instilling a fervent desire to contemplate creatively and to act constructively on each endeavor of the organization.

Sigma Mu Sigma

Alpha Chapter of Sigma Mu Sigma was founded in 1921 by a group of Master Masons and received its charter from the State of Indiana in 1924.

The ideals and the characters of the founders of this fraternity were of the highest quality; the wisdom and sincerity imbued in this fraternal body by these men has burned a traditional flame in the hearts of all brothers. Definite leadership in all fields has been shown in the years gone by and will continue in the future, as long as our neophytes are taught the high moral, traditional, and brotherly standards, perpetuated by the original leaders of Sigma Mu Sigma.

Even with the most valiant efforts of the loyal members, the national crisis of the 1930's forced this fraternity to become inactive. It was reactivated in 1940 through the efforts of the alumni.

Phi Sigma Chi

The Delta Epsilon Chapter which represents Phi Sigma Chi on Tri-State's Campus, was taken into the fold of the national organization in the fall of 1927.

Our Fraternity, which in correct terminology, is a social fraternity, opens its doors to anyone who is willing to live up to the principles and traditions set up by our glorious past. Friendship and brotherhood, instilled into the characters of our members has swelled the chests of each and everyone who has called themselves a "Phi Sig." It is with great pride and pleasure that we can be associated with such a splendid group of organizations.

To the men who are leaving through our doors for the last time as students and entering the world fortified by the experience and lessons obtained here at Tri-State College, we wish you happiness and a great future.

Sigma Phi Delta

Through the efforts of Professor Leroy Horpedahl, Kappa Chapter of Sigma Phi Delta received its charter in May of 1947. The membership is open to any student registered in Engineering and maintaining an average required by the college.

Sigma Phi Delta is an International Social Fraternity of Engineers. It has as its object the promotion and advancement of the Engineering Profession and Engineering Education the instilling of a great spirit of cooperation among Engineering Students and their Organizations; the inculcation in its members of the highest ideals of manhood, good citizenship, obedience to law and brotherhood, and the encouragement of excellence in scholarship.

Tau Kappa Epsilon

Expansion from Sigma Mu Sigma into Alpha Lambda Tau in 1935, and from Alpha Lambda Tau to Tau Kappa Epsilon in 1947 resulted in the organization that lives and works in the "house on the hill."

We believe that man is a social being. Our whole structure evidences the absolute interdependence of man. Reclusiveness is dwarfing to man's best qualities. Intimate and frequent contact with our fellows is necessary to symmetrical development. As a consequence, organizations whose purpose is to promote these ends are to be fostered and encouraged.

To those men who are leaving us this year, we wish success and happiness. We hope that the fraternal lesson will be as much help to you as it has been to countless others. To those who are beginning their lesson this year, we offer knowledge that is priceless.

Juliann Unterbrink, Sweetheart of Theta Mu Pi

Theta Mu Pi

In November of 1937 the Kadimah Society for students of Jewish Faith came into being on the campus of Tri-State College. The Board of Directors of the College officially recognized the organization on February 2, 1938. The society progressed from its humble beginning and in the fall of 1939 became the Theta Mu Pi fraternity.

Theta Mu Pi flourished with the years until early 1942 when due to the exodus of its members into the armed services, the activities of the fraternity were interrupted. The return of previously active members to the campus brought about the reactivation of the fraternity during the summer term of 1946.

The aim of Theta Mu Pi is to foster the educational, social, and spiritual life of its members. During the winter term of 1949 Theta Mu Pi elected to inaugurate another chapter into the fraternity. The original chapter shall be the Alpha chapter and shall be composed of members of Jewish faith. The new chapter shall be the Beta chapter and shall be non-sectarian.

AMERICAN SOCIETY TOOL ENGINEERS OFFICERS

LEFT TO RIGHT:

Secretary, Willard G. Hartman, *President,* William J. B. Ingham, Jr., *Treasurer,* Ralph W. Pashby, *Vice President,* Otho B. Gill.

A. S. T. E.

With the aid of several members of the Fort Wayne Chapter No. 56, A.S.T.E., a number of persons here at Tri-State, who are also members of the A.S.T.E., organized the Tri-State Junior Division of Chapter No. 56. This group is composed not only of Mechanical Engineering students, but of all students interested in Tool Engineering. The aims of the Society embrace all engineering fields where manufacturing is a problem. Thus, any student who desires the association with a professional society promoting the "improvement of products through Tool Engineering" will benefit by this association.

At meetings, the group is presented with various educational films, technical literature, and talks by men in the Tool Engineering profession. The group has an opportunity to visit many factories and attend industrial expositions where they see the latest machine tools that are being produced. The members also attend monthly meetings of Chapter No. 56 in Fort Wayne.

TOP GROUP

FRONT ROW: Herbert G. Chin Yee, Gene J. Hawkins, Kenneth H. Hainsworth, Otho, B. Gill, Everett Harris, William J. B. Ingham, Jr., Willard G. Hartman, Ralph W. Pashby.

SECOND ROW: Richard S. Hauffe, Julius J. Bajek, William J. Unger, Rudolph A. Walters, Jr., Darwin A. Mixer, J. J. Weger, Robert F. Niedernhofer. Leonard R. Henry, Robert A. Fesser.

BACK ROW W. H. Outcalt, J. A. Henly, John H. Luker, Charles J. Ford, John W. Kay, Edwin A. Anderson, Charles Byham, William E. Outcalt, Walter N. Lenoff.

American Society Tool Engineers

BOTTOM GROUP

FIRST ROW: Clifford F. Harbeck, Melvin L. Kratzman, John C. Pataky, Minard F. Rose, Anthony S. Gucciardi, George E. Billman, Gilbert N. Hilt.

SECOND ROW: Paul Dnistran, Wayne H. Vande Steeg, William Bowman, James A. Prugh, Kenneth P. Black, Ben D. Selfridge, Donald D. Tews, Harry Wright, John H. Glinning.

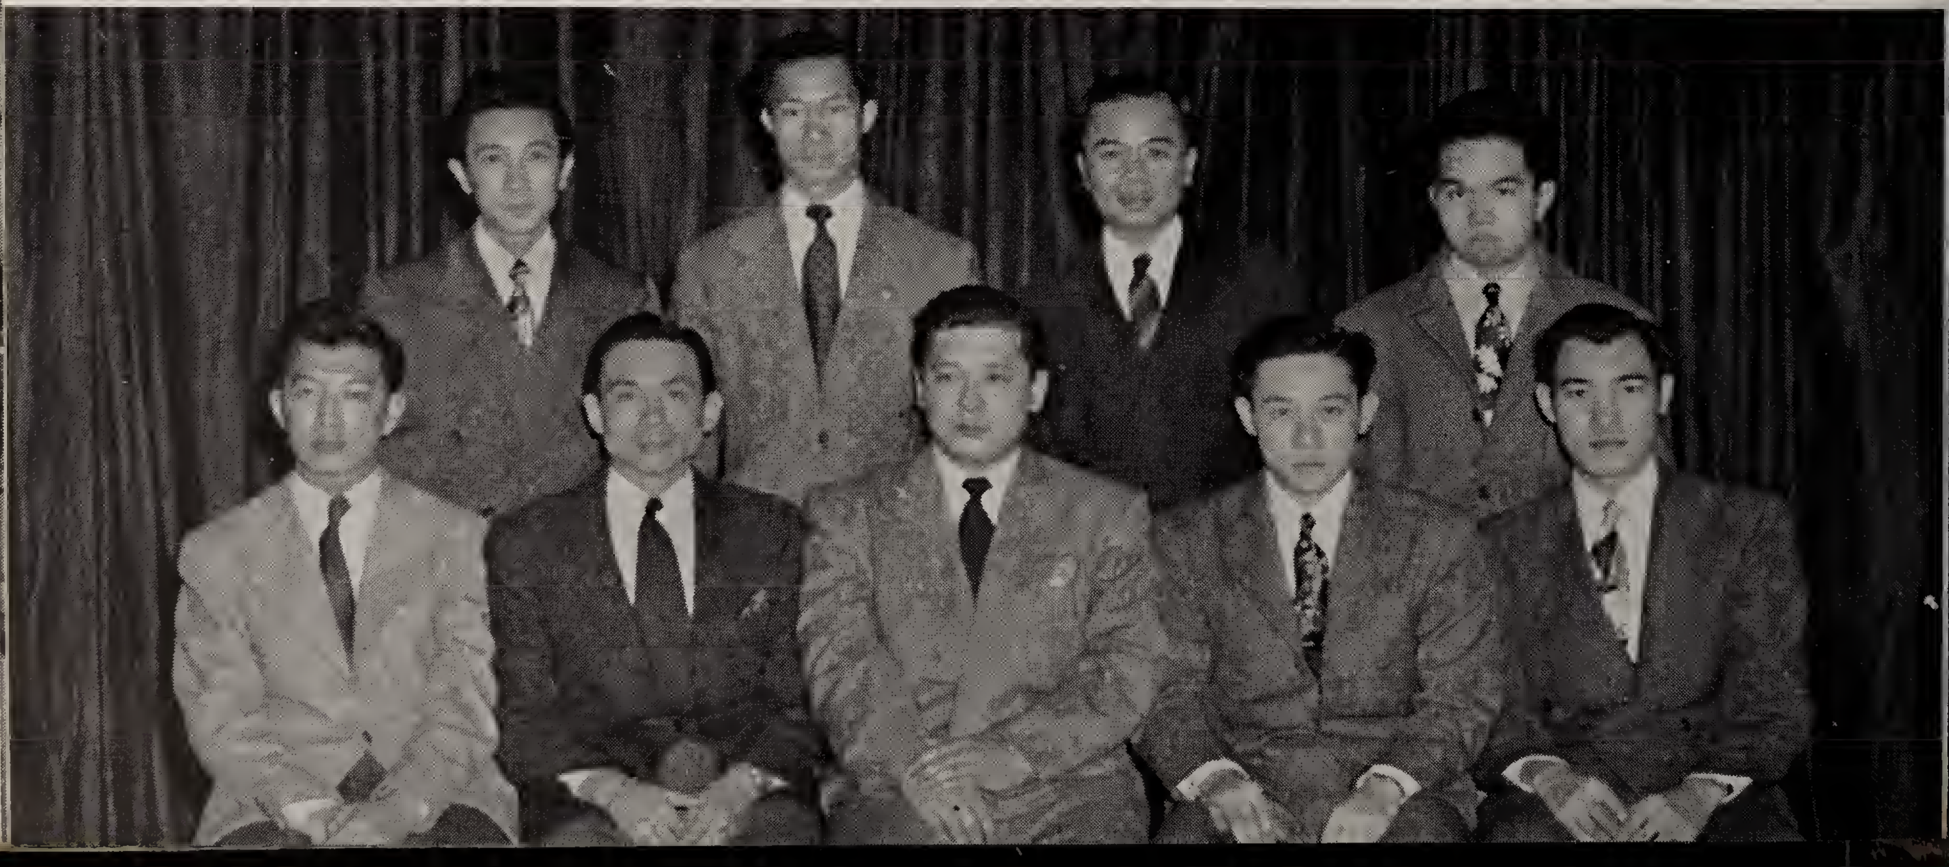
BACK ROW: Harold E. Smith, Russell Dewitt, Henry Dyson, D. A. Walker, Edward Kolasinski, William C. Gingrich, Robert F. Sawyer, Donald G. Wysong, Gracian J. Schmizzi.

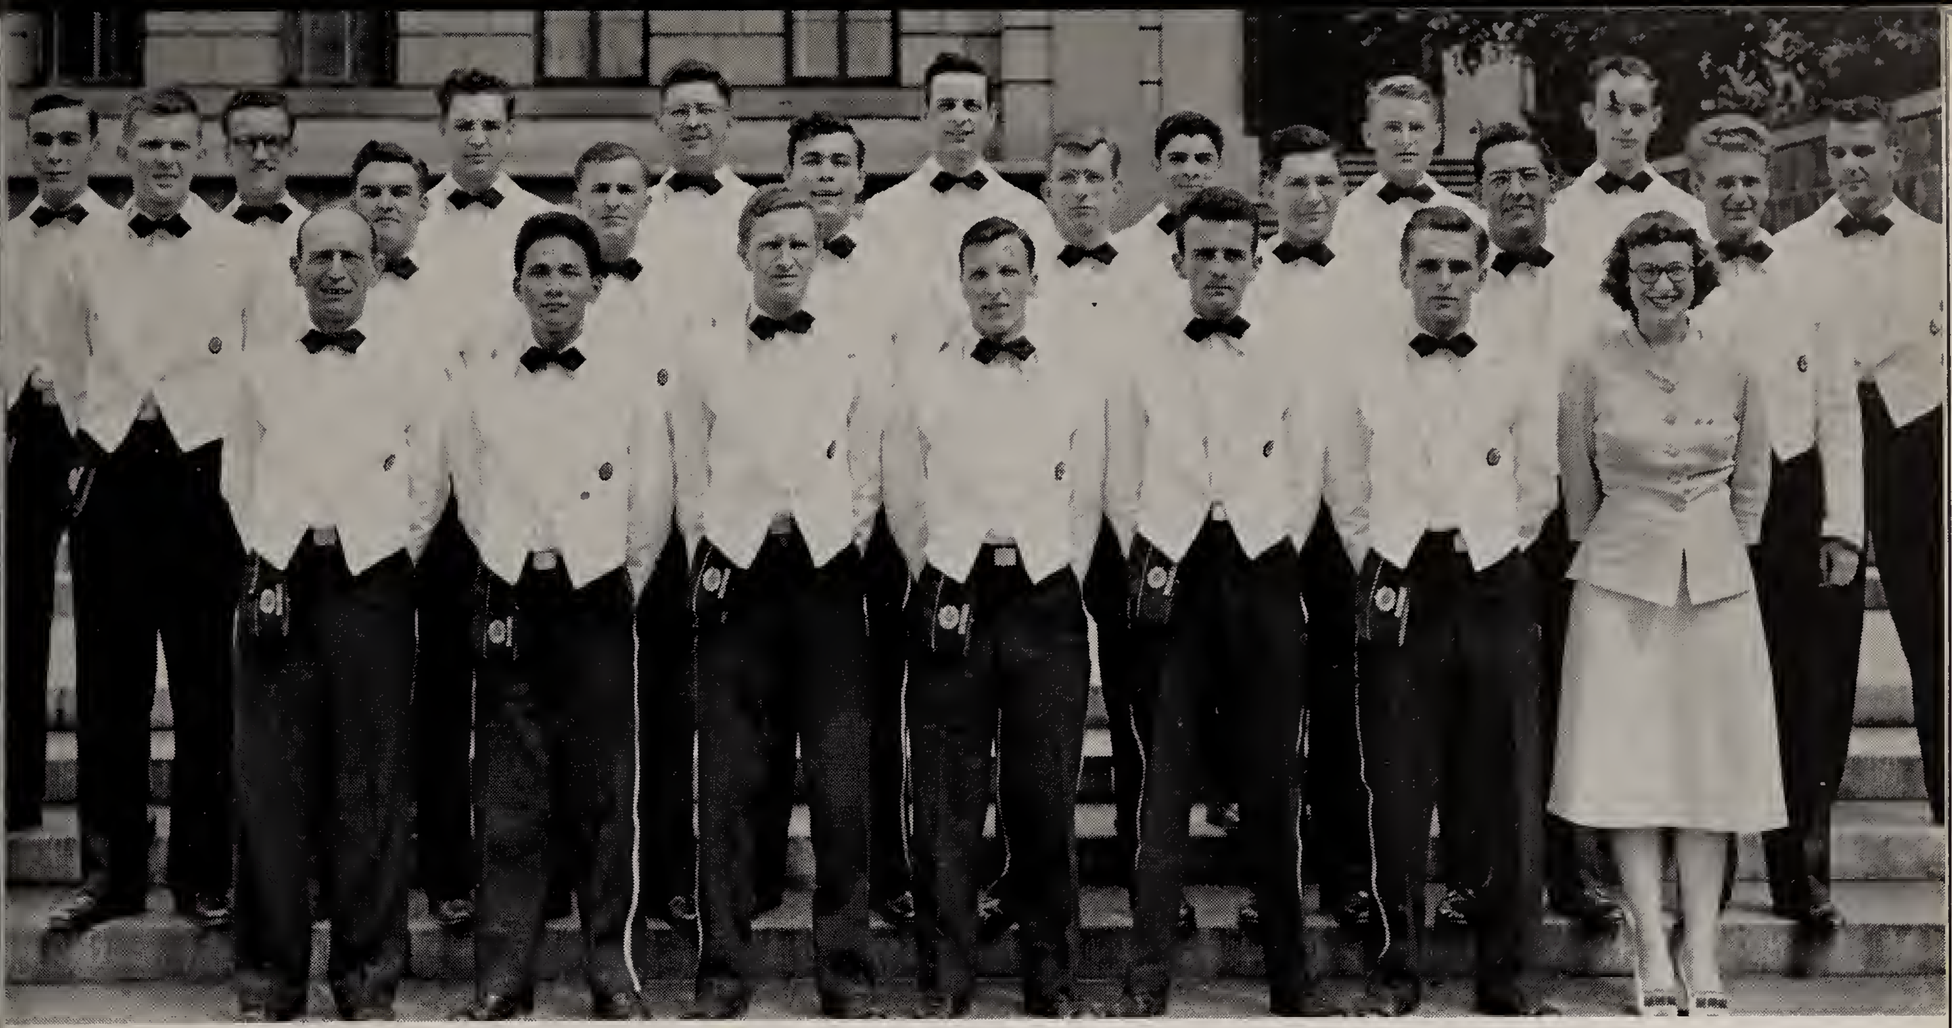
Chinese Club

This organization was founded in 1932, to form and strengthen the bonds of friendship among its members, to assist fellow-members and encourage high scholastic standards. Although the number of members is small, we have been working hard to make the organization function successfully.

First Row:
Thomas Young, Phillip L. Liu, Herbert Choy, Herbert G. Chin Yee, Robert W. Lee.

Second Row:
Tommy Wong, Dave Yee, Frank Lock, Quan Chin.





FRONT ROW: Lee Hirsch, Dick Ogota, Paul Stueckle, William King, Robert Megargle, Kenneth Chamberlin, Barbara Kindig.

SECOND ROW: Ray Kindig, Howard Jervis, Gurnal Jopson, John Black, Roy McLeod, Dr. Mason, Charles Bellahusen, John McCollum.

THIRD ROW: Charles McConnell, Marvin Groll, Bill Jones, Tom Miller, Richard Evans, Richard Trella, Fred Ullmer, Vern Shipley, Hugh Stryker.

All American Chorus

Sponsored by the Angola Post No. 31 of the American Legion, the Chorus, about twenty-five strong and still in its infancy, went to Indianapolis in August of 1947 and took part in the American Legion State Music Contest. Despite the keen competition, the Legion Chorus won second place honors. Again in August of 1948, under the guidance of Raymond and Barbara Kindig, the Legion Chorus took second place, competing against four other choruses throughout the state.

The Chorus, now firmly established in the community, has sung at all the Tri-State College Baccalaureates for the past two years and has participated in several of the school dance programs. They have performed for all the service organizations of Angola and have entertained their fellow Legionnaires at a number of district meetings.

TOP GROUP

FRONT ROW: Edwin A. Anderson, Anthony S. Gucciardi, Paul Dnistran, David Walker, William E. Outcalt, Ralph W. Pashby, Gene J. Hawkins.

SECOND ROW: Victor G. Hawk, John J. Weger, William F. Thomas, Robert F. Niedernhofer, Lloyd O. Thompson, Everett A. Harris, Leonard R. Henry.

BACK ROW: Norman F. Lang, Edward Kolasinski, Kenneth Parsons, Clifford F. Harbeck, Richard L. Ashville, Kenneth P. Black, Harry L. Roland, George E. Billman.

S. A. E.

The Society of Automotive Engineers is a professional society "To promote the arts and sciences and engineering practices connected with the design, construction and utilization of automotive apparatus." The Tri-State Chapter was organized during the past year.

BOTTOM GROUP

FRONT ROW: Charles J. Ford, William J. Unger, Howard G. Heinig, J. J. Bajek, Otho B. Gill, John C. Pataky, Robert A. Fessor.

SECOND ROW: William B. Smith, William A. Setlock, Richard S. Hauffe, Willard J. Tamminga, James A. Prugh, John H. Luker, William Bowman, Samuel Alouisa.

BACK ROW: W. H. Outcalt, John H. Gunning, Camiel DeKegelaer, Robert W. Rood, Guy E. Kennedy, Herbert K. T. Choy, Charles E. Byham.

PHOTOGRAPHIC SOCIETY OFFICERS

LEFT TO RIGHT:

Robert W. Friend, *Treasurer,* Herbert G. Chin Yee, *Secretary,* Charles W. Freeburg, *Vice President,* John B. Bell, *President.*

The Photographic Society

The Photographic Society, which was formed in the Fall of 1946, has made an outstanding record during the past year. It has handled all the photographic work for the Athletic Department and the Booster Club. The bulk of the pictures appearing in the Tri-Angle and many of the excellent pictures in this Modulus must be credited to the Society.

FIRST ROW: Professor Stanley Acton, John B. Bell, Charles W. Freeberg, Robert W. Friend, Herbert G. Chin Yee.

SECOND ROW: Eric H. Andersen, William A. Setlock, Paul D. Willcox, Al Paddock, Vernon Johnson, Professor Gordon H. Fries, Orville W. Morris.

THIRD ROW: Joseph D. Hadad, Roberta Gardener, Donald F. Carter, Edward G. Delaney, Donald E. Johnson.

The Tri-State College Band

The Tri-State College band was first organized in 1938 by the late Professor Almon G. Harshman, whose efforts have set an example for this and future bands at Tri-State.

Early in 1947 Roy C. Bodie, Jr., re-organized the band and through his diligence and leadership it has grown to the organization we are so proud of today.

The band is noted for its versatility. The members hail from all parts of the globe; and within this group is found a proportional variety of musical backgrounds. This has enabled its concerts to include everything from soft accompaniment for the soloists to the heavy passages of overtures. At sports events a rousing march is often followed by a light fantasy in boogie-woogie or jazz, which delightfully proves that there are no "Squares" in the outfit.

FIRST ROW: Donald J. Wine, T. Scott McCurdy, Donald F. Creedman, Ivan Nicodemus, Professor Ross A. Butler.

SECOND ROW: W. H. Reichardt, Harry A. Leng, Robert A. Fergus, James V. Dunn, Eugene D. Straight, Coach Robert Divine.

THIRD ROW: Charles E. Witt, Stanley I. Natowitz, O. E. Smith, Raymond L. Urch, Robert E. Henderson, Richard T. Mould, William C. Teagno, William O. Harris, John F. McVicar.

Boosters' Club

During the early part of the summer term the organization of the Boosters' Club was announced. The initial turnout was small but it was quite evident that the group was enthusiastic. The summer term was spent in outlining the aims of the club and the rules and regulations by which it should abide. It was agreed that the club would welcome students, faculty members and townspeople as members — to boost athletics at Tri-State. There would be no dues and the only membership requirement would be to have an interest in promoting Tri-State sports program.

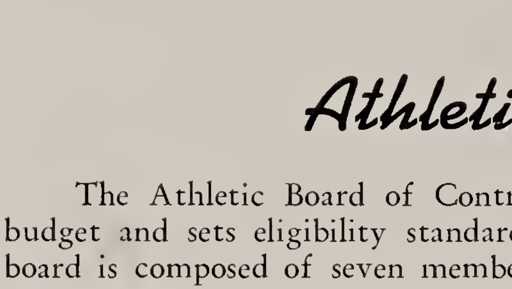
ATHLETIC BOARD

Left to right: Professor Ben B. Selfridge, Professor Robert Divine, Professor Kenneth C. Newnam, Professor Ross A. Butler, Charles E. Witt, Billy Sunday.

Athletic Board

The Athletic Board of Control establishes policies, determines the budget and sets eligibility standards for all athletics at Tri-State. This board is composed of seven members, three from the faculty, one from the Administrative Office, one representative from the student body, the Director of Athletics, and one alumnus.



COACH ROBERT B. DIVINE

Tri-State was very fortunate this year to have as athletic director a man of great ability and qualifications. Bob's pleasant personality and fine fieldmanship seem to promise a long and mutually beneficial stay for him and for the student body.

VARSITY BASKETBALL

FRONT ROW: Richard T. Mould, Manager; Salvatore N. Glasso, Lee D. Brown, Michael A. Strilich, Anthony F. Ramus, James J. Carver.

SECOND ROW: Coach Robert Divine, Robert J. Hemrick, Floyd R. Monroe, Robert A. Stevens, Dale E. Cobble, Robert P. Millerick, Raymond L. Urch, Manager.

THIRD ROW: James Bishop, Ronald E. Ehlinger, James F. Allen, George E. Keeling, Edward E. Lambert.

RESERVE BASKETBALL

FIRST ROW: Donald E. Gilbert, Casimir S. Strelinski, William E. Atchinson, Wilton J. Besemer, Robert M. Anthony.

SECOND ROW: William J. Gonedridge, Lyle E. Gilbert, Philip C. Miller, James H. Allen, Ralph F. Fox, Donald K. Folsom, Wayne E. Rennaker.

Basketball

The basketball team with a nucleus of six lettermen and sparked by the coaching of Robert B. Divine, overcame many difficulties last season to field a team that showed a definite and steady improvement as the season advanced. These men put on a great show, playing fast and hard every minute of every game; and the fans displayed much more spirit. There were also bigger crowds and higher gate receipts than in previous years.

The Engineers played such outstanding teams as Lawrence Tech, Wabash College, Assumption College and others. Tri-State will continue to schedule worthy opponents — and all concerned are hoping and working for an even better showing in the "won and lost" column during the coming season.

Baseball

The baseball team, under Coach Bob Divine, is looking forward to the forthcoming season with a great deal of anticipation. A large number of men turned out for spring tryouts, making competition keen for all positions. Facilities have been made available for indoor practice, thus enabling the team to get an earlier start and dodge bad weather.

With the revised coaching staff and good material to work with, Tri-State is going to field a good team this year.

STANDING:
Coach Emery Druckamiller, Frank Messier, Anthony Koptur, Elden Booth, Edward Buckley, Edward Tippenhaur, Robert Hale, John Diezk.

KNEELING:
Charles Priest, Victor Ganzer, Richard Greim, Joseph Chimenti, Robert Greim, William Burns, Lawrence Sanxter.

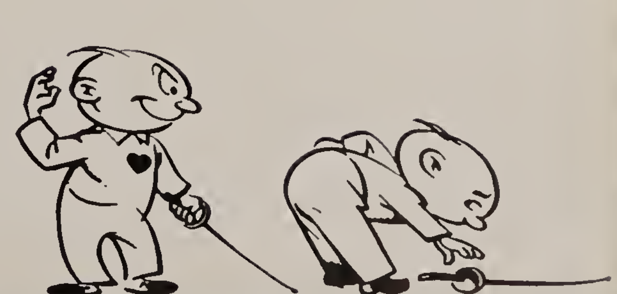
Second Row:
William F. Kladke, James R. Gerhard, Michael A. Sanossian, Robert W. Judy, Ladislao V. Sosa, Charles E. Brown.

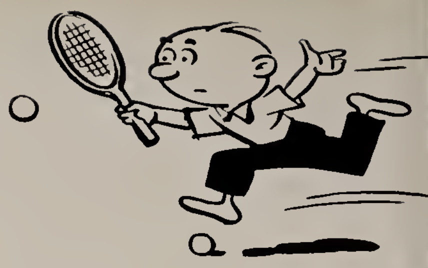
BEN SELFRIDGE
Coach

Fencing

The Fall term found the fencing enthusiasts of Tri-State hard at work recruiting new members and following an intensified training program. The resulting team defeated Illinois Tech and Highland Park College and lost very close decisions to Lawrence Tech and the University of Detroit.

Tri-State can well admire the Buccaneers for their sportsmanship and teamwork. Due to the supervision of Faculty Advisor Ben D. Selfridge and combined efforts of the individuals on the squad, Tri-State is justly proud of its fencers.





Tennis

The lack of tennis courts at Tri-State limits the activities of the team but it is the hope of the athletic department that the courts will be installed by next spring. Three matches have been scheduled. The team will also enter the State meet.

FIRST ROW: Richard C. Gasmire, Raymond L. Urch, Stanley I. Natowitz.

SECOND ROW: Richard E. Hunt, Howard M. Sullivan, Donald F. Creedman, David R. Hosler.

Golf was revived at Tri-State in the Spring of 1948, due to the efforts of Professor Clifford L. Adams and Ralph F. Fox. Practice was held daily at the Lake James Country Club and playoffs took place in April of that year.

With five lettermen returning, Tri-State has high hopes of improving last Spring's record.

LEFT TO RIGHT: Joseph A. Sowa, Don L. Casterline, Stanley A. Abramowicz, Ralph F. Fox, Paul Kostyshak.

Golf

Inter-Fraternity Championships

Inter-Fraternity sports again took the spotlight this year with activity in basketball, bowling, softball, and touch football.
